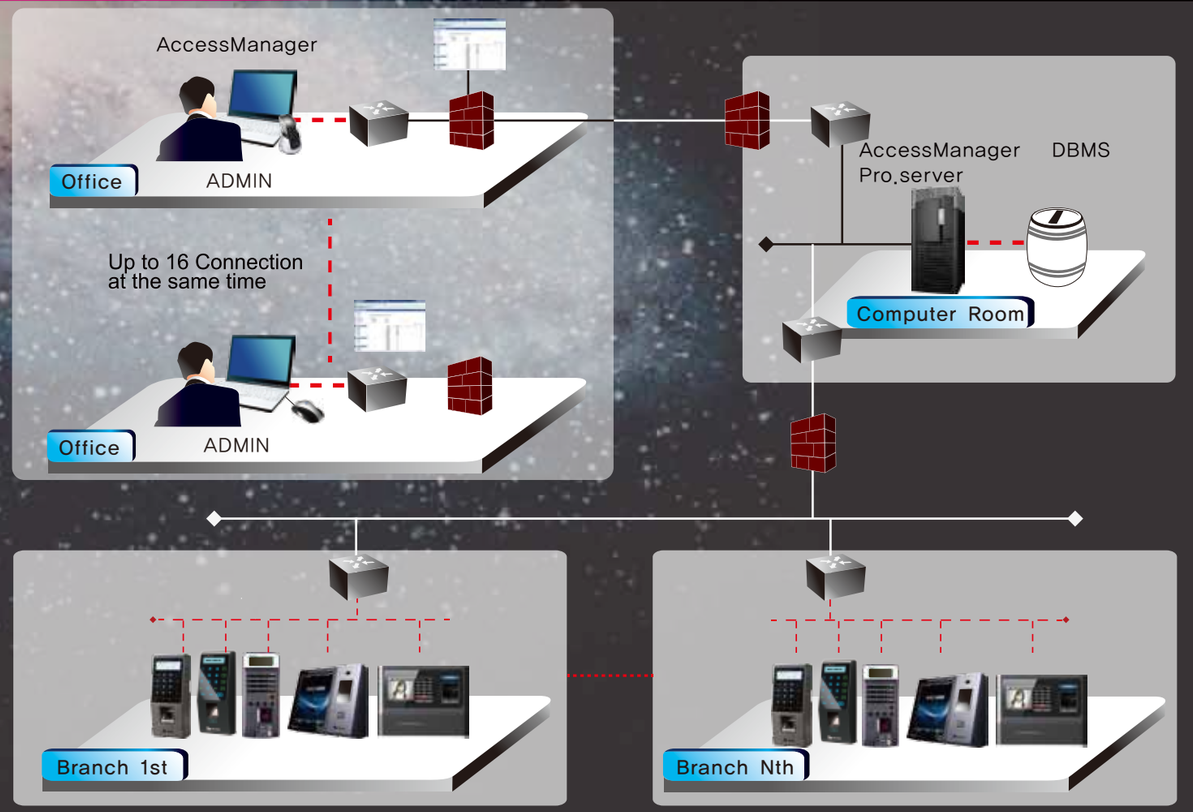
Access Control Solution

NITGEN&COMPANY

Access Control Solution

NITGEN&COMPANY's solution is used with Nitgen's award-winning fingerprint peripherals and offers advanced desktop biometric technology.

Solution Configuration



Management up to 2,000 terminals automatically

Features

Integrated Monitoring

- Real-time monitoring and management

Multifactor Authentication

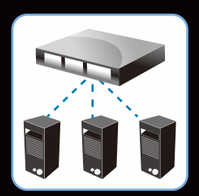
- Fingerprint, RF card, password, face (Optional)
- Any authentication methods can be used concurrently

Effective User/Group Management

- Group management by department, company, region for managing large quantity of information
- Time-zone™ function

Additional Features

- Notice, private message, wall paper, etc.
- Keep a record of all transactions



Load Balancing

- Distributed traffic among server and terminal
- Optimized system scalability and stability
- Safe packet encryption

Remote Control

- Remote monitoring of management server

Applications
